6	Yankauers	62	X	\$ 2.00	=	\$ 125.00
TOTAL SAVINGS						\$ 4,198
						\$50,375

...sterilizing virtually anything* with Anprolene

Plastic Surgeons use a variety of instruments and accessories every day, which are often disposed of immediately after use. Using the gentle sterilization properties of 100% ethylene oxide gas (EtO), the Anprolene series of tabletop sterilizers can sterilize almost anything* using 80% less gas than our closest competition. That's why Anprolene is used in over 5,000 facilities worldwide.

Gently sterilizes anything*

Uses less than 18cc of gas per load

Recovers lost revenue

* Anything but foods, drugs or liquids can be sterilized with Anprolene.
** Based on a 50 week year.
